

1    **ABSTRACT OF THE DISCLOSURE**

2           A strap suspender for a brassiere uses for holding either a cloth strap or  
3   a bead strap. The strap suspender for a brassiere has a body and a holder. The  
4   holder is pivotally mounted on the body. The body has a transverse lip formed  
5   on the body and a central slot defined through the transverse lip. The cloth  
6   straps and the bead straps can pass through the central slot and be held by the  
7   transverse lip or the holder.
